

Labrador Rescue North West

www.homealabrador.net

Thank you for adopting a Labrador. We provide as much information as we can on the dogs we re-home. However, in the case of a stray or bereavement this may be limited to our assessment while the dog has been with us. We are not liable for the accuracy of any information given but information is given in good faith.

We strongly recommend you take out insurance for your dog as soon as possible. Vets fees can be very expensive and insurance will help you provide the best care for your dog without the worry of cost. When considering insurance options, we recommend a policy that offers cover for life which means that any condition that develops will be covered for the life of the dog and not excluded at the next renewal. Wondering which insurance companies?

Remember the cheapest isn't always the best! You often get what you pay for, as people quite often learn to their cost. Current feedback has indicated that Saga (for owners over 50) More Than and Pet Plan are good, prompt and helpful, also all three are highly recommended by us.

It is not always possible for us to provide a current vaccination card but we will try our best to obtain proof of vaccination. If you do not receive this information within one month you should ask your vets advice. If the dog is micro-chipped we will advise how to have this transferred into your name.

In the case of female Labradors they must be neutered ASAP and must not be bred from. Please notify the rescue when neutering has taken place.

If you are unable to keep the dog you have adopted for any reason within the lifetime of the dog please contact us to get help/advice regarding re-homing.

Donations:

The donation you have made will be used to provide care for unwanted or abandoned Labradors which come into our care. If you require a receipt, please ask.

Ways you can help:

Join our list of friends and make a small monthly donation by standing order

Join our bonus ball club (details on website).

Donate to our appeals (details on website when necessary)

We hope that you have many years of happiness with the dog you have adopted from us. You have given him/her another chance of happiness and we are sure that he/she will return your faith in him/her. Please be aware that it may take a few weeks for your new dog to completely settle and adjust to his/her new home.

Important contact numbers:

Glenys Fryer: Rescue Coordinator - 01257 45200 (11.00am to 7.00pm)

Carol: Re-homing Coordinator - 07896 421148 (10.00am to 7.00pm)

Gina: General Enquiries – 07885 336439

There may be an answer phone in operation. If we are unable to answer please leave a clear message and a landline contact telephone number, and in case of an emergency leave a mobile number.
